

End to end Cold Chain Protection just got **easier.**

Genesis TDL

Introducing Tutela's new Temperature Data Logger

The Ultimate Mobile Cold Chain Protection

Flexibility with Powerful Integration Capability

Standalone Operation

With no special software needed, Genesis TDL can be used totally stand-alone to deliver unmatched accuracy and a raft of functionality designed specifically to protect valuable temperature-sensitive scientific products in the cold chain.

Pre-configured for you

The Genesis TDL comes pre-configured to your specific monitoring needs, but can also be shipped with a self-configuration option enabled.

Genesis TDL at a Glance

- Full stand-alone operating functionality
- No special software needed
- Instant status display
- Instant PDF download via standard USB
- Integrates with Tutela Genesis II
- Replaceable long-life battery
- Wide -200oC to +70oC temperature range
- Internal and external probe options
- Configurable Logging Intervals
- Continuous multi-journey tracking

Instant Status Display – Instant Download

Designed with a LCD display that gives constant excursion status, the Genesis TDL connects to a USB to provide an instant PDF download at the end of the journey.

Seamless Integration

Tutela System users will appreciate the compatibility with their existing monitoring system.

Simple to Use

Compatible with Tutela Genesis II

Long Life Battery

No Software Needed

-200oC to +70oC

Technical Specifications

Product Type	Temperature logger with multiple journey tracking
Application	Cold chain monitoring temperature variances
Alarm Modes	Up to 6 Above temperature threshold Below temperature threshold Alarm delay times
Probe Type	Internal and external probe options
Measurement Range	-200oC to +70oC
Tolerance	0.3C
Display	Fixed function LCD display with instant status option
Display Resolution	0.1C
Display Function	Probe temperature value Max journey temperature Min journey temperature Average journey temperature Mean kinetic temperature Battery days remaining count % of journey in alarm time Journey status (alarm/normal) In transit status Arrived status
Logging Frequency	Configurable from 5 secs to 60 mins
Battery Life	Up to 3 years
Reporting	Unique serialised PDF journey report file Embedded tabular journey data in report file
Traceability	Full traceability Unique electronic serial number
Dimensions	115mm x 50mm x 20mm
Case Material	Hygienic ABS
